

Cooking Safely For A Crowd

PROTECT YOURSELF AND THE PEOPLE YOU FEED *Safe Food Handling for Quantity Cooks*

You may be a good cook, but cooking for a crowd is different.

Where do you store all that food? How do you keep the fresh foods cold? When is the food completely cooked? How long can you leave the serving tray on the picnic table?

Come and learn food safety procedures!!

Who Should Attend?

Anyone who plans, prepares or serves food at a large group event! This may be your fair or festival booth, funeral lunch at a church, the county fair 4-H food stand, a community meal, graduation parties or family reunions.

Why Take This Workshop?

It is very important that people in your organization or business who will be preparing, handling, or serving food are aware of and practice safe food handling techniques.

It's scary to think people might get sick from the food you serve, but it can happen. Each year, millions of people suffer from food-borne illnesses. While food-borne illnesses can be as mild as a stomach ache, they can also be fatal!

Will my Wadena County Special Event License fee be reduced if I attend?

Yes! If you attend, your fee will be reduced.

Questions about the workshop or registration? Contact Connie at 507-337-2819 or schwa047@umn.edu

Pre-registration is required.

The workshop will be cancelled if fewer than 15 participants are registered.

University of Minnesota is an equal opportunity educator and employer.
